Letter of Support for Pushworth – the US in the MUSIC Program

I write in full support of The Pushworth Group and their application for Restart Investment to Sustain and Expand (RISE) Fund, supporting the arts and entertainment sector to reactivate. The US in the MUSIC program is designed to rebuild local business communities through the pathway of live and local music events, by raising the profile of local businesses, tourism operators and community media partners.

Supported by the Mental Awareness Foundation, the US in the MUSIC is the creation of local community hubs, focused on local economic promotion and recovery.

The Pushworth Group continues to work with musicians to create employment opportunities for live music and production, as artists emerge from the studio into a live and local engagement with our creative industries.

It is a pleasure to support for The Pushworth group as they seek external funding to reactivate the earning ability for musicians, support the economic recovery and growth of regional bars, venues and local regional community hubs through the US in the MUSIC.

Yours sincerely

A handwritten signature in blue ink that reads 'Trevor' followed by a diagonal slash.
